What to do when hearing aids are not enough

Join us for a **FREE** and educational event to learn about hearing loss and implantable solutions.

Are you or your loved one struggling with your hearing even when using hearing aids? You are not alone. If you are interested in learning more about hearing implants — how they work, candidacy and more, we can help.

During this time, we will discuss:

- Hearing loss and implantable technology
- How a hearing implant can benefit you in your everyday life
- The surgical procedure and how to prepare
- The features and benefits of cochlear implants

**ASL interpreters available upon request*
